Enjoy up to 99.98% cleaner air

TOO MUCH HUMIDITY...

...TRANE FreshEffects™

A whole-house clean air solution for increased comfort

TOO LITTLE HUMIDITY...

...TRANE Humidifiers

A whole home solution for air that is too dry

TRANE FreshEffects™ Energy Recovery Ventilator features:

- Exchanges stale indoor air for an equal amount of fresher outdoor air.
- Retains heat and moisture from exchanged air in winter, but pre-conditions and dehumidifies incoming air in summer—so your home is more comfortable year-round.
- Transfers energy from the air being exhausted from inside to the air being drawn in from outside, making for a more energy-efficient home.
- Adjustable control provides automatic ventilation 24/7
- Cabinet is powder-coated for an appliance look. All component materials are rigorously tested for long-lasting performance and durability.

The TRANE Humidifiers features:

- Helps alleviate dry conditions which may aggravate asthma and allergy symptoms
- Reduces static electricity in carpets
- Helps avoid damage from dry air to your furniture, woodwork, paintings and musical instruments
- Reduces shrinkage of wood floors and woodwork
- Cold winter air feels warmer at lower temperature levels
- Eliminates need for portable appliances

The TRANE Clean Effects features:

- Removal of up to 99.98% of particles and allergens from your filtered indoor air.
- An industry-leading clean air delivery rate of 1,200.
- Low operating costs, with no replacement filters to buy.
- Cleaning indicators easily visible on the outside of the unit.
- Easy to clean filters—just vacuum or rinse once every 3 to 9 months (depending on usage).
- Easy installation.
- Quiet operation.
